

Learning Outcomes

- 1) Demonstrate respectful and efficient communication skills with patients and families from diverse cultural and socioeconomic backgrounds using both verbal and nonverbal communication techniques.
- 2) Apply skills acquired during training to accurately gather comprehensive medical histories, incorporating psychosocial and behavioral factors that impact health.
- 3) Execute precise and accurate physical examinations with proficiency.
- 4) Apply basic procedural skills essential for the effective practice of dynamic nursing care.
- 5) Exhibit proficient communication with fellow healthcare professionals as a fundamental skill in the medical field.
- 6) Provide proper patient care in collaborative settings involving multiple healthcare professionals to promote health and address health concerns.
- 7) Fulfill professional obligations by displaying ethical conduct, utilizing research and evidence-based practices, and demonstrating mindfulness of the unique needs of diverse patient populations.
- 8) Demonstrate awareness of the broader healthcare system and its impact on both patients and the practice of dynamic nursing care.
- 9) Collaborate with community members and stakeholders to identify healthcare needs, develop culturally sensitive interventions, and communicate effectively to promote community health.
- 10) Engage in research initiatives to contribute to the advancement of nursing knowledge and innovative healthcare practices, demonstrating a commitment to evidence-based approaches and continuous learning.
- 11) Apply nursing skills and adapt communication strategies effectively in various industries, such as corporate healthcare, occupational health, and industrial settings, ensuring optimal patient care within diverse work environments.
- 12) Demonstrate flexibility and proficiency in nursing practices to meet the unique needs of patients in non-traditional healthcare settings, including community outreach programs, educational institutions, and other diverse community-based initiatives.
